Videotree*

Super Reflective Premium Quality Dielectric LED Mirrors

*Reflective Beauty*

# Is it a mirror? Is it a television?

*As if by magic...*

Sophisticated, discreet and technically brilliant, the Mirros is the ultimate in mirror televisions. At first glance, it's a normal mirror. But it turns into a beautiful television with an astonishing array of features.

Just use the powerful technology cleverly concealed behind the mirror to experience dazzlingly full HD, LED delivered video and over 70 digital channels from a standard TV aerial.

Dielectric glass means perfect reflection when the Mirros is off while the HD LED screen provides unbelievable picture quality, clarity and brightness.

*Attractive, Easy to Use and Waterproof!*

We developed the concept of the Mirros over 10 years ago. Since then we've improved the design and boosted the performance.

It's absolutely waterproof so it's ideal for bathrooms. In hotels it adds the perfect touch of luxury to en-suite rooms, ensuring a truly memorable guest experience.

Designed to add style to any room, the Mirros uses our unique "Mirror Touch" screen control for complete ease of use. Turn it on and off, adjust the volume and change channels without using the remote control.

## Is it a mirror? Is it a television?

*And it's not just for bathrooms.*

With its advanced, ergonomic design, the Mirros can be used anywhere where a mirror would normally hang. DVDs, in-house channels, advertising and digital signage can all be displayed on the Mirros screen, so conference centres, reception areas, hallways and presentation suites all make excellent locations for it.

*Mirros Stunning Design, Powerful Features.*
